**AT&T Pothole Testing from Mason Farm Rd to Cameron Av (in segments)**

Project will begin on Sunday, 15 Jul and will involve pressure digging of Test potholes and then subsequent refilling and sealing of holes. The west side travel lane of Columbia will be closed in segments and will move to new locations every day. Traffic warning signs and traffic cone tapers will be used for traffic control. Transit and pedestrian traffic will not be affected. Project completion is estmated for 20 Jul, weather permitting.

**Manning Dr Repaving from Ridge Rd to West Dr**

Begins on Sunday night, 15 July until 30 July weather permitting. All work will be performed at night. Alternating lane closures will occur for milling, paving, and striping. Flashing light signs and arrows along with traffic cone and barrel tapers will be used. Pedestrian traffic will not be affected. Transit will not be affected during the night time hours. The contractor is not allowed to store vehicles on Blyth Drive, he will use the section of Williamson Drive per map below to stage equipment and material. Contractor will use Blyth Dr to store vehicles and equipment during the day and about 5 parking spaces in the S-11 lot for material storage. (See Roy Cox for specific arrangements).

Map of the contractor's staging area:

**Columbia Repaving from South Rd/McCauley to Cameron Av**

Begins after completion of Manning Dr repaving, on or about 01 Aug. Work will be performed in daylight hours by request of Carolna Inn. Alternating lane closures will occur for milling, repaving, and striping. The northbound Bus stop at NROTC Building will be closed and previous bus stops will have to be used during this time. Pedestrian traffic will not be affected. Project is estimated to be complete on or before 14 Aug weather permitting.

**Columbia Streetscaping from Manning Dr to Health Sciences Library**

Bidding will occur on 18 July with construction estimated to begin on or about 01 Aug. The east side of Columbia (bus lane) will be closed to install new curbs and gutter. Upon completion and the reopening of the east side lane, the west side lane of Columbia will then be closed to install new curb and gutter, light poles, fire hydrant relocation, and landscape planting. To reduce traffic congestion, the bus stop at the Health Sciences Library will be closed and all passenger boardings and deboardings will take place at the Carrngton Hall stop, 300" to the north. Pedestrian traffic should not be affected. The project is estimated to be completed on or about 30 Sep weather permitting. Caution is encouraged as construction will occur during Student move-in week (15- 19 Aug) and the start of classes (21 Aug). Should there be delays from either unknown sources or weather, exra traffic congestion may be expected for the UNC home football games on 01, 22, and 29 Sep.

**Craige Deck Expansion**

Project expected to begin on or about 03 Sep. Design plans and Traffic Control Plans are being finalized. The beginning stages of the project will close the souith side sidewalk along Manning Dr in front of the existing Craige parking deck. However, pedestrian access to the lower levels of the deck will remain open throughout the project. Later development of construction will close the south side travel lane of Manning Dr to traffic. This lane closure will also close the existing bus stop at Manning and Hardin Dr. The bus stop will be either closed or relocated to a previously located bus stop. Plans will shift east bound traffic lanes to utilize the middle turning lanes for traffic flow. The project is estimated to be complete in 2014 and will impact pedestrian, transit, and regular traffic especially during athletic and other special events.
