

How to Enlarge Font Size on Microsoft Edge

This document contains step by step instructions to assist patients with enlarging font size on Edge. The instructions can also be found on the [website to increase default text on Microsoft Edge](#).

Steps to change the font size:

1. Select **Settings and more**, then click **Settings**, then click **Appearance**.
2. Scroll to the bottom of the page to view **Fonts**, then select **Large** or **Very Large** from the dropdown menu.
3. To customize the font size, click **Customize** and move the horizontal bar to select the desired size.
