

How to Enlarge Font Size on macOS

This document contains step by step instructions to assist patients with enlarging font size on macOS 10.15 Catalina. The instructions can also be found on the [website for how to make text larger in macOS 10.15 Catalina](#).

Steps to change the font size:

1. Click the **Apple** icon in the top left corner of the screen, then select **System Preferences**.
2. Click the **Displays** icon, then look under **Resolution** and click the button next to **Scaled**.
3. If you're using a MacBook Pro, MacBook Air or iMac with a Retina display, select **Larger Text** and click **OK** on the pop-up message.
4. If you're using an older Mac or an external monitor, reduce the resolution to a lower value from the menu. Click **OK** on the pop-up message.
