

How to Enlarge Font Size on Firefox

This document contains step by step instructions to assist patients with enlarging font size on Firefox. The instructions can also be found on the [website to change the fonts and colors for Firefox](#).

Steps to zoom in or out on your current page:

1. On your computer, open Firefox.
2. Click the **menu** button on the right. The customization menu will open and you will see the zoom controls at the bottom.
3. Use the + button to zoom in, and the - button to zoom out. The number in the middle is the current zoom level. Click it to reset the zoom to 100%.

Steps to only change the size of the text and not the images:

1. Press the **Alt** key to temporarily bring up the traditional Firefox menus. On the menu at the top, click **View**, then go to Zoom.
2. Select **Zoom Text Only**. This makes the controls only change the size of text, not images.

To change the font size for all webpages, follow these steps:

1. Click the **menu** button on the right and select **Settings**.
2. In the **General** panel, go to **Language and Appearance**.
3. Under **Fonts**, use the drop-down menus to select the font and font size of your choice.
4. Close the **about:preferences** page. Any changes you've made will automatically be saved.

To disable a custom font on a webpage, follow these steps:

1. Click the menu button and select **Settings**.
2. In the **General** panel, go down to **Language and Appearance**.
3. Under **Fonts**, click the **Advanced** button.
4. In the Fonts dialog that opens, uncheck **Allow pages to choose their own fonts, instead of your selections above**.
5. Click **OK** to close the **Fonts** window.
6. Close the **about:preferences** page. Any changes you've made will automatically be saved.
