

## **How to Enlarge Font Size on Safari**

This document contains step by step instructions to assist patients with enlarging font size on Safari or macOS Sierra. The instructions can also be found on the [website to change font size or zoom level of web pages in Safari.](#)

### **Steps to change the font size:**

- 1.** To increase the font size, press **Option Command Plus sign (+)**
- 2.** To decrease the font size, press **Option Command Minus sign (-)**
- 3.** Or you can go to the **View** menu and hold down the **Option** key while you select **Make Text Bigger** or **Make Text Smaller**.

### **Steps to change the zoom size:**

- 1.** To increase the zoom level, press **Command Plus sign (+)**
- 2.** To decrease the zoom level, press **Command Minus sign (-)**
- 3.** Or go to the **View** menu and select **Zoom in** or **Zoom out**.  
Under **Make everything bigger** on the **Display** tab, expand the menu and select the option you want.

**To reset the font size and zoom level back to the default settings follow these steps:**

1. Go to the History menu, select **Clear History**. Then click **Clear History** again.

You may need to sign out and back in again for some of the changes to take effect on certain apps, but it applies to most things immediately.
